## **FUELS POLICY DIRECTIVE INDEX**

1. **PURPOSE:** Provide sequential index to published fuels policy directives. Air Force Fuels Policy Directives (AFFPD) are instructional in nature and provide interim policy and procedural guidance until incorporated into Air Force publications or technical orders. The index identifies the effective date and office of primary responsibility (OPR) for the respective AFFPD. The index and policy directives shall be annually reviewed and revised or rescinded as necessary.

2. **AUTHORITY.** The directives are a coordinated correspondence between HQ USAF/ILGM and DET 3, WR-ALC/AF and remain in force until amended, replaced, or rescinded. In those instances where MAJCOM or local guidance conflict with an Air Force Fuels Policy Directive, the AFFPD shall take precedence.
